

Kent & Masters saddles are expertly made in England

We are proud that all our leather saddles are made in England by skilled craftsmen and qualified master saddlers using traditional techniques. We combine this heritage with scientific research & testing plus saddle-fitting expertise to develop fitting solutions for even the trickiest conformation.

Delasalle Saddlery supplies and fits the following Kent and Masyers saddles and accessories:

Next-generation Kent & Masters saddles made in England, featuring the Adjustable Gullet Bar, Jacobs wool flocking, full-grain hide seat and knee rolls, softer flaps and refined styling — all at an accessible price.	
	NEW R-Series Cob & Connie GP Low Wither Changeable Gullet 'S' Bar Colour: Black/Brown Size: 16½"/17"/17½" Conformation: Low Wither Changeable Gullet: N/M to XXW Gullet Bar Type: S-Bar Built on a square cantled low head tree the saddle provides a more generous seat and panel. Designed for a stable low profile fit for the cob, Connie and more flat backed types. The seat is shaped to provide a feeling of closeness that's often difficult to achieve with this conformation. A slimline panel gives extra-close contact and stability The moveable Velcro knee block can accommodate a wide variety of leg sizes. Four girthing options to improve stability on even the widest of horses or those with big movement.

Kent & Masters saddles are only available from our network of independent retailers - you can't order direct from us (neither in the UK or overseas)

	NEW R-Series Low Wither GP Changeable Gullet 'S' Bar Colour: Black/ Brown Size: 17"/17½" Changeable Gullet: N/M to XXW Gullet Bar Type: S-Bar The perfect GP for a low-withered, short backed horse, regardless of width – even those with a big movement. Designed for any horse with a low wither - not just super-wide Cob types (although they will love it too!) The seat is shaped to provide a feeling of closeness that's often difficult to achieve with this conformation. A slimline panel gives extra-close contact and stability The moveable Velcro knee block can accommodate a wide variety of leg sizes. Four girthing options to improve stability on even the widest of horses or those with big movement.
	NEW R-Series Compact GP GP and Pony and Smaller Saddles Low Profile, Standard Wither, and High Wither Changeable Gullet 'R' Bar Colour: Black/Brown Size: 16½/17/ 17½ Changeable Gullet: N/M to XW/XXW Gullet Bar Type: R-Bar This has a different feel to our Universal GP; slim riders or those with narrower hips may feel it suits them better. The 'compact' refers to the neat seat which makes this a great option for the petite rider on a large pony or small horse. The cut is forward enough to accommodate a jumping leg position – making it a really versatile saddle. Two panel options for horses with a medium or high wither profile. Velcro knee and calf blocks under the flap which can be positioned to suit your leg length and position.

	Ghosted stitching on the knee pad helps it contour neatly around the block and ensures added comfort. Four girthing options which allow saddle stability to be optimised instantly.
	NEW R-Series Universal GP Low Wither and High Wither Changeable Gullet 'R' Bar Colour: Black/ Brown Size: 17/17½/ 18 Conformation: Standard & High Wither Changeable Gullet: N/M to XW/XXW Gullet Bar Type: R-Bar An alternative to our Compact GP, this model has wider, flatter seat and will suit you if you like the feel of 'more room' in the seat or are slightly wider in the hips. An alternative seat shape to the Compact GP which makes it a viable option for those who find the neat, compact seat doesn't suit them. Two panel options: Standard-wither for horses with a medium wither profile, or high-wither gusset option. A generous panel with a good bearing surface, and wide channel for spine clearance. Velcro knee blocks under the flap can be positioned to suit your leg length and position. Ghosted stitching on the knee pad helps it contour neatly around the block for added comfort. Four girthing arrangements allow saddle stability to be optimised instantly
	NEW R-Series Dressage Dressage and Pony and Smaller Saddles Standard Wither and High Wither Changeable Gullet 'R' Bar Colour: Black Size: 16½/ 17/ 17½/ 18 Panel Type: Standard High Wither Conformation: Standard & High Wither Changeable Gullet: N/M to XW/XXW Gullet Bar Type: R-Bar Available in black only, this saddle will suit you if you like the flexibility of a moveable support

Kent & Masters saddles are only available from our network of independent retailers - you can't order direct from us (neither in the UK or overseas)

	block under the flap which can be positioned to suit your requirements. A true, deep 'dressage seat' Three panel options for horses with a low, medium or high wither profile. Velcro block under the flap can be positioned to suit your leg length and the level of support required. Ghosted stitching on the knee pad helps it contour neatly around the block and ensures added comfort. Changeable girth straps allow you to optimise saddle stability
	NEW R-Series Low Wither Dressage Changeable Gullet 'S' Bar Colour: Black Size: 17/17½ Changeable Gullet: N/M to XXW Gullet Bar Type: S-Bar The perfect dressage saddle for all low-wither conformations, regardless of width, including compact and short-backed types. The low head and slimline panels combine ensure a good fit and great stability on flat-back, low-wither types. A true dressage seat shaped to enhance the rider's position while still providing a feeling of closeness. Broad, slimline panels for maximum extra-close surface contact with the horse's back. Velcro knee blocks under the flap which can be positioned to suit your leg length and position. Ghost stitching on the knee roll to help the flap mould around the block and comfortably support the leg. A choice of girthing arrangement which allows the saddle fitter to optimise saddle stability instantly.

	NEW R-Series Jump Standard Wither Changeable Gullet 'R' Bar Colour: Black/ Brown Size: 17/ 17½ Changeable Gullet: N/M to XW/XXW Gullet Bar Type: R-Bar The perfect jump saddle for show jumping and cross country, the forward-cut flaps and moveable blocks combine to support the rider's leg in the shorter jumping position. A tree with longer, swept-back points to support the front of the saddle and allow freer shoulder movement. A seat shaped to enable the rider to dynamically adjust their centre of balance over the fence. Broad panels for maximum surface contact with the horse's back. Velcro knee and calf blocks under the flap which can be positioned to suit your leg length and position. Ghost stitching on the knee roll to help the flap mould around the block and comfortably support the leg. Changeable girthing arrangement which allows saddle stability to be optimised instantly. This saddle suits a broad range of horse conformations.
	NEW R-Series Low Wither Jump Changeable Gullet 'S' Bar Colour: Black/Brown Size: 17/ 17½ Changeable Gullet: N/M to XXW Gullet Bar Type: S-Bar The perfect jump saddle for all low-wither conformations, regardless of width. The low head, slimline panels and multiple girthing options combine ensure a good fit and great stability on flat-back, low-wither types who enjoy show jumping and cross country. A seat shaped to provide a feeling of closeness and enable the rider to dynamically adjust their centre of balance over the fence.

	Broad, slimline panels for maximum extra-close surface contact with the horse's back. Velcro knee and calf blocks under the flap which can be positioned to suit your leg length and position. Ghost stitching on the knee roll to help the flap mould around the block and comfortably support the leg. Changeable girthing arrangement which allows saddle stability to be optimised instantly.
	NEW R-Series Pony GP GP and Pony and Smaller Saddles Low Withers and Standard Withers Changeable Gullet 'S' Bar Colour: Black/ Brown Size: 15/ 15½/ 16 Conformation: Low & Standard Withers Changeable Gullet: N/M to XXW Gullet Bar Type: S-Bar Designed for the short and flat backed pony, this saddle will take children through their pony riding years whatever activities and disciplines they enjoy. Now upgraded to the S-Series this smart little saddle benefits from a hide-covered seat, skirt, and knee roll to add that touch of style for the young rider. This saddle is available in one panel profile (standard) but thanks to the SimaTree S-Bar and wool flocking it can be adjusted by a saddle fitter to suit low withers and standard withers fits. Velcro knee blocks under the flap can be positioned to suit leg length and position. Five girthing options allow saddle stability to be optimised instantly on a variety of conformations (see girthing information below) This saddle takes the SimaTree S-Bar and so is suitable for ponies with a medium or low withers. A saddle fitter can usually achieve a good fit on a variety of conformations, thanks to the open-headed tree and versatile panel design which is flocked with English wool.

	NEW R-Series Pony Long Leg Changeable Gullet 'S' Bar Colour: Black/ Brown Size: 16/ 16½ Changeable Gullet: N/M to XXW Gullet Bar Type: S-Bar Although designed primarily to take children through their riding years, this saddle is a good option for leggy teenagers or petite adults on ponies or shorter-coupled horses thanks to the forward-cut flap. This saddle is available in one panel profile (standard) but thanks to the SimaTree S-Bar can be adjusted to suit low wither and standard wither fits. The flap is cut forward in front of the point of the rider's knee to accommodate a leggy teenager or adult pony rider. Velcro knee block under the flap can be positioned to suit leg length and position. Five girthing options which allows saddle stability to be optimised instantly on a variety of conformations This saddle takes the SimaTree S-Bar and so is suitable for ponies with a medium or low wither. A saddle fitter can usually achieve a good fit on a variety of conformations, thanks to the open-headed tree and versatile panel design which is flocked with English wool.
	NEW R-Series Pony Jump Standard Wither Changeable Gullet 'S' Bar Colour: Black/ Brown Size: 15½/ 16/ 16½ Conformation: Standard Wither Changeable Gullet: N/M to XXW Gullet Bar Type: S-Bar A jump saddle for ponies, the R-Series Pony Jump has forward-cut flaps, plus moveable blocks, designed to support the young rider's leg in the shorter jumping position. This may look similar to the R-Series Jump saddle, but it is on a different tree - more suited to a pony conformation - and takes a different gullet bar.

Kent & Masters saddles are only available from our network of independent retailers - you can't order direct from us (neither in the UK or overseas)

	A pony tree with longer, swept-back points to support the front of the saddle and allow freer shoulder movement. A seat shaped to enable the rider to dynamically adjust their centre of balance over the fence. Broad panels for maximum surface contact with the pony's back. Velcro knee and calf blocks under the flap which can be positioned to suit your leg length and position. Changeable girthing arrangement which allows saddle stability to be optimised for various types of pony conformation and different movement.
